### STRIKERS STIRRING.

Awake All Night at  
the Scene.

### LABOR CONFERENCE CONVENING.

Captain Laur Accompanied  
by a Body Guard.

More Trouble Apprehended on  
Saturday.

### The Striker's Quiet.

MOUNT PLEASANT (Pa.), April 3.—Quiet reigns throughout the coke regions this morning. No outbreak has occurred since the fatal raid yesterday morning, and while the situation is still very grave the presence of the militia has a reassuring effect. Two regiments are upon the ground. The uncertainty and fear last night proved an awful strain on both the strikers and citizens. No sleeping was done in the entire region, but crowds paraded the streets or gathered in knots on the corners, or disappeared in bunches over the dark hills, leaving doubt as to their destinations and intentions. Foreigners are quiet, but always in crowds, and momentary fear of an outbreak which an entire regiment could not quell was only dissipated by the first streaks of early dawn. So far ten deaths have occurred and several more are in a critical condition. The funerals will take place on Saturday.

Peter West, Master Workman of the Knights of Labor, says the entire coke country will turn out, and about that time the people must take care. The inquest on the bodies was resumed this morning. Neither the Sheriff nor the coke companies were present in full force. Albert Halley swore the only shooting he heard came from the guards. George Taylor, watchman, testified to hearing two or three pistol shots before the regular firing of the guards. The witness was a deputy and carried a revolver. He had not known whether all the guards carried revolvers or not. The doubt created as to whether the pistol shots were fired first by the guards or strikers, was received with a cheer by the crowd.

Fears are entertained for the safety of Captain Laur, whose men did the shooting yesterday. Threats against him are loud and he is going around with a body guard.

Trouble is looked for in Fayette county, and it is probable a regiment of militia will be sent there.

The following telegram was received this afternoon from Alexander Jordan, Italian Consul at Philadelphia: "Impossible for me to come. Denounce the killing to the proper authorities."

### The Sligo Election.

SLIGO, April 3.—The result of the polling yesterday for a member of Parliament to succeed the late Peter McDonald as representative for North Sligo is announced this afternoon. The contest resulted in the election of the McCarthy candidate, whose majority is 800.

The jaunty cars upon which the ballot boxes were conveyed from the outlying districts to the town hall were escorted by the constabulary armed with loaded rifles. The cars are arriving all night.

### Capital News.

WASHINGTON, April 3.—Attorney-General Miller has received a telegram from the United States District Attorney at New Orleans saying he was engaged in the investigation of the recent killing of Italians, in accordance with the instructions from Washington and will forward the report as quickly as possible.

Two jurors in the Kincaid trial are ill this morning, and a recess was taken till this afternoon.

### Labor Conference.

PITTSBURGH, April 3.—A most important conference will be held here this afternoon. All miners' union officials, with other national officers of labor organizations, and the future course of organized labor in this country will be decided upon.

### The Olsen Trial.

MENARD (Cal.), April 3.—The prosecution in the Olsen-Ivett murder trial began this morning on the opening of what they intended to prove. Mr. Reddy said: "We intend to prove that Olsen told a man in 1888 that if no heir was born to Ivett he could kill Ivett and easily prove an alibi, and that two years ago Olsen told the same man that \$2,000 could be made by killing Ivett, and since the murder agents of Olsen have threatened said man if he testified to this."

The prosecution then closed the opening statement and a recess was announced.

LATER.—The bodies of the dead have been extricated from the mine. The cause of the disaster is supposed to be fire damp and the fool hardness of one of the miners after the presence of danger was discovered.

### Fatal Explosion.

LONDON, April 3.—A disastrous explosion in a coal mine took place today at Apedale, Staffordshire. Ten miners were killed and several others severely injured.

LATER.—The bodies of the dead have been extricated from the mine. The cause of the disaster is supposed to be fire damp and the fool hardness of one of the miners after the presence of danger was discovered.

### Weather Report.

SAN FRANCISCO, April 3.—The forecast is fair weather.

### ARBOR DAY.

Beautiful Weather, Bright Skies and Balmier Air of Spring.

The weather was almost perfect today, and seemed especially fitted for Arbor Day exercises. The sun was bright and warm, and a spring time lassitude pervaded the air, and all nature seemed in accord with man's preparation of celebrating this, the most practical of all holidays to the people of this treeless region.

Preparations for the celebration of the day had been made by the Faculty and students of the University and the teachers and pupils of the public schools, and their programs as published in the GAZETTE were duly carried out in a very creditable manner according to general report.

AT THE UNIVERSITY  
The exercises were conducted out of doors, on the grounds fronting the main hall, and each class planted its tree with suitable remarks and recitations. This will in time result in the production of a beautiful grove around the University buildings that will be appreciated by future students, for the sunny, and at times, wind swept hill, is sadly in need of shade and wind barriers. During the day flags floated from the main University building and the Dormitory, but there was none from the Experiment Station building, which has a high bred U. S. pedigree, and according to the eternal fitness of things should float the bunting.

A feature of the day was the inauguration of a class distinction in dress, which, by arbitrary enactment of the students of the college proper, prescribes that males of the scientific and classical departments shall wear white vests; the seniors to also wear black silk hats; the juniors, white chimney pots, and the Sophomores, black Derbys. Students of other departments who dare to don this attire will do so at the peril of getting a sound thrashing from the first appropriators. The students in the Business Department ignore such toggery as being too effeminate for this age of practical purpose, and have adopted a negligee shirt as a mark of their sturdy manliness. As there is only one male student in the Normal Department he doesn't seem to be in it, so far as class costume goes, as the others ignore him, and it is suggested that he should wear a dress. What the outcome of all this distinction without a difference will result in remains to be seen.

THE ROTHCHILDS' WEALTH.

A Family That Hangs Together and Accumulates Gold by the Billion.

The Rothschilds are believed to have \$50,000,000 invested in American securities. Only the Rothschilds themselves know what they are worth, and they never tell family secrets. One of their mottoes is, "Gold never repeats what it sees," and another, "A man will not tell what he has not heard," but some idea of their great riches can be had from the fact that since 1815, they have raised for Great Britain alone more than \$1,000,000,000; for Austria, \$250,000,000; for Prussia, \$200,000,000; for France, \$400,000,000; for Italy, nearly \$300,000,000; for Russia, \$125,000,000; for Brazil, from \$60,000,000 to \$70,000,000; and for smaller States, certainly \$200,000,000 more.

### Election of Representatives.

Reno Lodge No. 19, at their last regular meeting, elected the following representatives to the Grand Lodge, I. O. O. F., to be held at Winnemucca in June: R. V. Borden, J. J. Becker, Donald McKay, E. Nowatney, J. E. Phillips, Benton Peck, N. J. Hoff, J. B. Williams, John Horn, and Jas. E. Bradshaw.

### A Large Yield.

PAT FLANAGAN has taken 60,000 pounds of wool from a flock of 8,000 sheep and it is only a ten months' clip at that. This is the largest clip ever taken from that number of sheep in Nevada before. The wool, too, is clean and nice. This is an average of seven and one-half pounds per head. Beat this record somebody.

## RUBINI TO BLAINE.

Nature of the Note  
Not Disclosed.

SITUATION NOT EXCITING.

Auspicious Events in Australia.

Snow Storm in New England Yesterday.

### Heavy Snow Storm.

NEW YORK, April 3.—A heavy storm which swept over this section last night did considerable damage, particularly to the east of New York. The storm was accompanied in many places by a heavy, wet snow, and this aided by a high wind, demoralized the telegraph wires to a great extent.

Dispatches from Poughkeepsie say: "Heavy storm raged in the Hudson river valley all last night. About a foot of snow fell, but only six inches laid for any length of time. Telegraph, telephone and electric light wires crossed and are down in every direction. It will take a week or ten days to get the wires in good working order again. The weather is now clearing and the snow rapidly disappearing."

BOSTON, April 3.—The storm throughout New England was very severe. A stiff northeast gale was blowing all night, with a heavy rain on the coast and snow in the interior. There were fourteen inches of snow throughout western New England. All trains are late. The wind reached a velocity of sixty miles an hour. In the harbor the tide was the highest for six months and considerable damage was done to shipping, many vessels dragging anchors and drifting on the flats. A few schooners were damaged while others were badly damaged by being driven against the wharves. Telegraph and telephone wires are down in every direction. Reports from Chatham state that more damage was done inland than any other gale within the memory of man. The barometer was lower than ever before, and the tide is running very high, the water completely covering the beach.

### Suit for Brokerage.

NEW YORK, April 3.—La Motte, Potter & Co. brought action for \$30,000 brokerage against George Washington Hunt, President of the Oregon & Washington Territory Railroad Company, for work in a deal not completed. They claim to have procured a loan of \$100,000 from the Oregon & Transcontinental Company through Henry Villard in bonds of the Oregon & Washington Territory Co. at the request of the defendant, who then declined to accept the loan. Judge Ingram ordered the plaintiff to give \$2,500 security on an attachment by which they have levied on \$918,000 in stock of defendant's road.

### The Italian Question.

WASHINGTON, April 3.—It is understood that Blaine received a copy of Rudini's note cabled yesterday, that will be laid before the Cabinet today. The Star says Blaine's note to the Marquis Imperiali of yesterday was cabled at once to Rome. Marquis Rudini replied last night directing Marquis Imperiali to hand it to Blaine. This was done at 10 o'clock this morning. It was in Italian and had to be translated. When this was done Blaine, taking all the documents proceeded to the White House, where the Cabinet had been in session an hour. The tenor of the note is not yet made public.

### Ex-Confederates to Blaine.

KANSAS CITY, April 3.—The following telegram was sent to Secretary Blaine: We, of the Ex-Confederate Social and Benevolent Association of Kansas City, express the hope that in your official dealings with the Italian government, it will not be forgotten that our government is entirely satisfactory to the people who made it, and that as to maintaining the integrity, honor and dignity of this government, there is no division of sentiment among its people.

### Jury Disagreed.

NEVADA CITY (Cal.), April 3.—After being out twenty-seven hours, the jury in the case of Clement Dunn, tried for assault in shooting at Fred Almas at Truckee, was discharged without a verdict. The jury stood 11 for acquittal.

### A Commonwealth.

LONDON, April 3.—The creation of the commonwealth of Australia by the Federation Convention at Sydney is barely noticed in the morning papers which fail to recognize its importance. The Star grasps the significance of the convention's action. Australians it is said have copied the constitution of the United States, avoiding its defects and evils. Australia will accordingly be a Democratic federation, particularly a Republic with a Monarchical veneer. The delicate task devolves on the Queen of appointing a Governor General. Australia will not accept a titled nonentity. A mistake in choice would endanger the connection between the mother country and a new federation, where everything is ripe for a declaration of independence and the election of a President. The convention adopted the clause of the constitution providing that the chief executive of the federation shall be known as Governor General and shall be appointed by the Queen. The proposition that the Governor General be elected by popular vote was rejected by a vote of 35 to 3.

### Sensational Surrender.

NEW ORLEANS, April 3.—Dominick C. O'Malley, the notorious detective charged with having attempted to pack the jury in the Hennessy case, and who mysteriously disappeared, created a sensation this morning by surrendering himself. He was admitted to bail.

O'Malley looks well, though rather pale. He says he will make a statement. He would not tell whether he left the city or not. A friend of his says he has been there all the time.

### Heavy Libel Suit.

SAN FRANCISCO, April 3.—The Mutual Benefit Life Association of America today commenced a suit in the Superior Court against J. G. Edwards and E. H. Bacon, proprietor and editor respectively of the Coast Review, a monthly insurance journal, to recover \$100,000 for alleged libel published in the Review on March 9th, reflecting on the statue of the association.

### Strike of Coal Miners.

SAN FRANCISCO, April 3.—Telegrams have been received at the office of the Oregon Improvement Company in this city, stating that a strike has occurred among the men employed in the New Castle mine, which is situated about twenty miles east of Seattle. This will throw four hundred or five hundred men out of work.

### Heavy Failure.

ST. JOSEPH (Mo.), April 3.—The wholesale boot and shoe store of Smith, Blasland & Co., was closed today by the Sheriff on attachments aggregating \$100,000. The stock is valued at \$250,000 and all claims will be paid. Smith turned over to the firm \$200,000 worth of property to satisfy his personal debts.

### Flood in Ohio.

ST. MARYS, April 3.—The bank of the reservoir is partly washed away and the grounds for miles around are flooded. The track of the Lake Erie Western road is under water and work is suspended at the oil wells. The loss thus far is \$25,000.

### Silver Purchases.

WASHINGTON, April 3.—Of the 915,000 ounces of silver offered the treasury to-day, 370,000 ounces were purchased as follows: 25,000 ounces at .9820, 50,000 at .9825, 80,000 at .9830, 161,000 at .9835 and 5,000 ounces at .98375.

### Bills in a Bunch.

SACRAMENTO, April 3.—Monday next will be the last day when the Governor can sign bills. He says he will not sign any until then, when he will attach his signature to all which he intends shall become laws, in a bunch.

### Season Opening.

LOS ANGELES, April 3.—Knell, the ball pitcher, to-day signed with the Columbus, Ohio, Association club, and leaves to-morrow to meet the club at Louisville.

### A Colored Youth Hanged.

ANNAPOLIS (Md.), April 3.—Ernest Forbes, a colored boy who committed an outrage upon Bertha Phipps, November last, was hanged here this morning.

### Death of Attorney Jeffords.

TUCSON (A. T.), April 3.—H. R. Jeffords United States Attorney for the District of Arizona died this morning after an illness of several weeks.

### Steamer Arrivals.

NEW YORK, April 3.—The steamship, Lahn, arrived from Bremen. HAMBURG, April 3.—Arrived—the steamship, Rugia, from New York.

### A Treasurer in Jail.

SAN FRANCISCO, April 3.—County Treasurer Widber formally surrendered himself to the authorities today, in accordance with a judgment of Judge Wallace, who a few days ago decreed that the Treasurer was guilty of contempt of Court when he refused to obey the order of Judge Trout and pay the bill presented by the Sheriff for the fitting up of the present court room of Department No. 2, and ordered him confined one hour daily until purged for contempt. A writ of habeas corpus was sued out in the Supreme Court on behalf of Widber this morning, and was made returnable before Court to-morrow morning. In the meantime Treasurer Widber is released on his own recognizance.

### The Boston Boston.

SAN FRANCISCO, April 3.—Although President Folsa has made no official announcement, as yet, it is currently reported in sporting circles that he has received a reply to his telegram to George Dixon, the Boston bantam. Dixon, it is said, agrees to box Abe Willis, the Australian, at the California Athletic Club if the contest is set for August. He will require a purse of \$5,000 to be put up, and further, wants \$500 expenses.

### Suicide of a Cashier.

SAVANNAH (Ga.), April 3.—Thomas Gadsden, cashier of the Merchants' National Bank, committed suicide this morning at the grave of his daughter. He was a prominent man, and had been connected with the bank many years.

### Spring Styles.

For suitings blue and black serges and the rough-faced and very light chevrotines are in high favor. Gray is a popular color. There is a tone about it that seems to be lacking in other shades. In style both the sack coat and cutaways are made with but little change from last season.

The newer fancies in suitings are the old-time Scotch fabrics, shown in the invisible plaid patterns, in angers, in various shades of tan and brown.

In trousers there is a trifle more distinctiveness in patterns. There are some big plaids in black and white, with lines of red or blue or yellow tracery.

The tendency toward increasing the length of coats has been going on steadily for some years. It has affected all styles of coats. The sack coat of the spring was cut one and a half inches longer than last spring.

### Citizens' Meeting.

We, the undersigned, request our neighbors to meet at the Court House on Saturday evening April 4th, at 8 o'clock to discuss the management of our town and county officers and take such action as shall promote the best interests of all and the general prosperity.

### Province of Assam.

The Province of Assam, the scene of the recent outbreak and massacre of the British Commissioner and his party by natives, lies in the valley of the Brahmaputra river, bordering upon Burma. It was ceded to England by Burma in 1826 and has been much developed since then, but civilization has not been extended to some parts of the province. The rising will not affect the general quiet of the Indian empire.

### They Were Full.

A fashionably-dressed but intoxicated man approached clerk Davids of the Astor House, New York, the other day, and asked for a room.

"They're all full," said Mr. Davids. "Well, that don't scare me," said the guest; "so'm I."

### Claiming Attention.

Repairing, house cleaning and gardening are all needing their share of attention just now, and the saw and hammer and silent paint-brush are carrying off lots of dirt now-a-days.

### Spring Has Come.

Spring is here and it looks as if it had come to stay this time. The trees are putting forth their buds, and in a few days will hang full of fragrant blossoms.

JOTTINGS.

The hardest of all things is to get a man to stop and look himself squarely in the face. Ask him to take a glass of beer.

In memoriam resolutions, cards of thanks and notices of funerals published in the Gazette are charged for at the rate of 10 cents per line.

"Talk about striking a tender chord," soliloquized the tramp at the wood pile; "this is one of the toughest cords I ever struck. Order wood or coal of J. F. Aiken."

Bagley—I understand you are living on the fat of the land, Bailey. Yes, I'm boarding now, and about all I get is the fat. Go to the Arcade and order what you want and you will get it.

"A friend in need is the best of friends," this sounds like a sort of joke, for a man with too many friends who need will find that he's always broke. Gems and jewels at the store of Richard Hart.

"And, Edward, although you live in a wicked city, I suppose you go to church regularly?" "Oh, yes; I haven't missed an Easter for years," C. A. Thurston keeps the latest magazines and pictorials.

Husband—What would you say, my dear, if I were to give you the money for a new spring hat. Wife—I wouldn't say a word, darling, until I had the money in my hands, for fear you'd change your mind. Go to the Riverside hotel for good meals and the best of beds.

Its Excellent Qualities.

Commend to public approval the California liquid fruit remedy, Syrup of Figs. It is pleasing to the eye, and to the taste, and by gentle action on the kidneys, liver and bowels, it cleanses the system effectually, thereby promoting the health and comfort of all who use it.

How to Get Rid of Mischance.

Who has not suffered from mischance? We all had it when we ran races at school—we have it when we overwork ourselves at any age. It comes on, as everybody knows, suddenly. By using one of Alcock's Porous Plasters it goes away nearly as quickly. J. F. Aiken, No. 536 West 26th street, New York, says:

"It is with pleasure I write these lines in testimony to the powers of Alcock's Porous Plasters. I have been somewhat annoyed with serious pains in my sides, for which several medicines have been prescribed, but to no avail, and through the advice of a friend I tried two Alcock's Porous Plasters, and the relief they have given me is both satisfactory and astonishing. To any one annoyed with pains these plasters are a certain remedy."

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with Abscess of Lungs, and friends and physicians pronounced me an incurable consumptive. Began taking Dr. King's New Discovery for Consumption, and now, my third bottle, and am able to oversee the work on my farm. It is the finest medicine ever made." Jesse Middlewert, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of lung troubles; was given up by doctors; am now in best of health. Try it. Sample bottles free at Finner's drug store."

A Sure Cure for Piles.

Holding Piles as known by medicine, like perspiration causing intense itching, when warm. This form, as well as blind, bleeding and protruding, yield at once to Dr. Bosanko's Pile Remedy, which acts directly on the parts affected, absorbs tumors, allays itching and effects a permanent cure. Sec. Druggists or mail, treatise free. Dr. Bosanko, Piquette, O. Sold by S. J. Hodgkinson.

Surprise.

Overcomes me at seeing you here, Mamie. I heard that you were pros- trated with one of your blinding headaches. True, I was, but a single dose of Cephaline completely relieved me. You can get it at any drug store.

Spring Medicine.

Dr. Gunn's Improved Liver Pills on account of their mild action are especially adapted for correcting Spring disorders, such as impure blood, tired brain and aching and worn out body. They act promptly on the liver, kidneys and bowels, drive out all impurities from the blood, and malaria from the system. Only one pill for a dose. Try it. Sample bottles free at 25 cents a box by S. J. Hodgkinson.

"Brown's Bronchial Troches" are widely known as an admirable remedy for Bronchitis, hoarseness, Coughs, and throat troubles. Sold only in boxes.

THE REV. GEORGE H. THAYER, of Bourbon, Ind., says: "Both myself and wife owe our lives to SHILOH'S CONSUMPTION CURE." For sale by S. J. Hodgkinson.

LAWS OF NEVADA.

Passed at the Fifteenth Session of the Nevada Legislature, Ending March 19, 1891.

The GAZETTE continues to-day the publication of the laws enacted by the last Legislature. Those of only local character are given in brief synopsis, while any of general interest will be given in full.

CHAP. LXXI.

An Act to grant aid to the several District Agricultural Associations and the State Agricultural Society appropriations for 1891 and 1892 as follows: To Storey, Ormsby and Douglas counties, comprising District No. 1, for 1891, \$2,000; for the year 1892, \$1,500; and for each of the years 1891 and 1892, the sum of \$1,000 to each of the following districts: Nos. 2, 3, 4, 5, 6 and 7.

To the State Agricultural Society the sum of \$2,500 for each of the years 1891 and 1892.

Prohibits using the money to pay any purses in racing.

CHAP. LXXII.

An Act to pay the deficiencies in the appropriation for the support of the University.

CHAP. LXXIII.

An Act amending the fish laws. SECTION 1. Section 3 of said Act is hereby amended so as to read as follows:

Section three. It shall be the duty of the Fish Commissioner to require, as far as practicable, all persons, firms, companies, associations and corporations who have erected, or may hereafter erect, any mill dams, water weirs or other obstructions, on rivers or streams and lakes within the waters of this State, to construct and keep in repair fish ways or fish ladders at such mill, dam, water weir or obstructions, so that at all seasons of the year fish may ascend above such dam, weir or obstruction to deposit their spawn; and any such obstructions or dams shall not be made use of to catch the said fish by Indians or other persons. Any person, firm, company, association or corporation owning such mill dam or obstruction who shall fail or refuse to construct or keep in repair such fish way or ladder, after having been notified and required by the Fish Commissioner to do so, shall be deemed guilty of a misdemeanor, and upon conviction thereof, shall be punished by a fine not exceeding five hundred dollars for every such neglect or refusal.

Sec. 2. It shall not be lawful for any person or persons, between the first day of October of each year and the first day of April of each year, to catch or kill any river lake or brook trout or land-locked salmon in any of the streams, rivers, lakes or other waters within this State; provided, that the "close season," as to lake trout, in all the lakes of this State shall commence on the first day of January of each year and end on the first day of April of each year. Any person violating the provisions of this section shall be guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than twenty dollars nor more than one hundred dollars, or by imprisonment in the county jail not exceeding one day for each two dollars of fine, or by both such fine and imprisonment.

Sec. 3. Prohibits fishing except by hook and line and imposes a penalty for violation.

Sec. 4. Prohibits any express or transportation company from receiving or transporting any lake or brook trout or land-locked salmon between October 1st and April 1st of each year; and any lake trout between December 31st and April 1st of each year.

Sec. 5. Protects private fish ponds, and imposes a fine, for taking fish from them without consent, of from \$2 to \$10 for every fish taken.

Sec. 6. Prohibits the employment of Indians to catch fish in violation of any provision of this Act.

Sec. 7. Makes it the duty of the District Attorneys, Commissioners, Justices, Sheriffs and deputies, when notified by the Fish Commissioner, to make complaint against parties named for violation of the provisions of this Act.

Sec. 8. Example private fish ponds. Sec. 9. Relates to the Fish Commissioner and forbids any compensation for his services, and provides for his necessary expenses.

Sec. 10. Provides a fine of \$25 against parties convicted of violation of the provisions of this Act, to be paid to the party securing the arrest and conviction.

SUGAR ON THE FREE LIST.

It Should Affect Prices Some in Nevada in Favor of the Consumer.

The Salt Lake Tribune has the following on the sugar question, many points in which will forcibly apply to the situation in Nevada. Statistics are not obtainable, but Nevada does not probably pay near as much for sugar as does Utah:

At midnight of March 31st the duty on sugar ceased and it became free on the customs list. There were hundreds of carloads of sugar in bond standing on sidetracks in Omaha, Kansas City, St. Joe and Chicago which became free on April 1st, and have been held in bond for some time awaiting this date to become free. By reciprocity with the Hawaiian government, sugar from that country has entered this country free while the products of other countries have paid customs duty, and this has given the California companies about all of the sugar trade of the West. Last year there was brought into Utah and consumed about 750 carloads of sugar, averaging fifteen tons each, the average price being six and a half cents per pound in San Francisco and one cent for freight, or seven and a half cents per pound. A resident agent in this city of one of the California sugar companies took orders last Saturday for 400,000 pounds of sugar to be delivered here at \$5.90 per 100 pounds, which is a big reduction over the average price of 1890, and which will cut down quite materially in the total of nearly \$1,500,000 paid by Utah for sugar last year.

DEATH OF KIT CARSON JR.

Murdered in Piche in 1870 by an Unknown Assassin.

In the fall of 1870 news was received from Piche announcing the death of Kit Carson Jr., whose body was found weltering in his blood near a house on Lacour street, that was then, only sparsely built upon. A bullet wound showed the cause of death, and it was at first supposed to be a case of suicide, as he held his revolver grasped in his hand. But an examination of it showed that all the chambers were loaded and none had been recently discharged. An inquest was held and a verdict rendered that death resulted from a pistol shot, fired by some one unknown to the jurors. It was looked upon as a cold-blooded murder, but in those days people saw nothing and were satisfied "to keep their eye on the gun," for the

"FREE 'O DAY BOYS"

Were numerous, as was evidenced by the silent witnesses in the cemetery below the town. People held theories as to the ones suspected of taking the life of Kit Carson, and there was one man living in Hamilton, 150 miles distant, who felt decidedly uncomfortable about it for the handle of the revolver held in Kit's hand was engraved the name of the man in Hamilton. He was never called upon to explain, for he was a well known agent of the leading stage line, and was known to have been on duty in the Hamilton office at the time when the deed was committed.

Kit had pawned the revolver to him when going to Piche only three months before, upon a promise to redeem it within thirty days, which he did, and had the revolver sent to him by express. During the time when it was in pawn,

A FRIEND OF THE AGENT.

Who had the run of the stage office, in an idle hour, without asking permission, had the name engraved on it, supposing the agent to be the owner. It could not be erased from the silver-plated handle, and was returned to Kit in that condition. Thus the agent's name was connected with the murder and the temporary suspicion threw the scent off the trail of the real slayer and he escaped without ever being suspected, or if so, was at least never named.

Kit Carson Jr. was a nephew of Kit Carson, the famous scout, and like his uncle, was wedded to frontier life and the freedom that surrounded it. He was uncultivated, but generous to a fault; as true as steel and as courageous as he was uneducated, and to death. He scorned to skulk or take advantage of an unarmed foe, and the supposition was that his death was due to his open defiance of the lawless ruffians that then held sway in the camp. He was shot from behind, but in the throes of almost instant death, he drew the gun as he fell.

RESOLUTIONS OF SYMPATHY.

Reno, Nev., April 2, 1891. To the Officers and Members, Reno Lodge, No. 18, I. O. O. F.

We, your committee appointed to draft resolutions of respect for our late brother, George Warden, beg leave to report as follows:

Whereas, We have placed the Almighty to take from our midst our young and respected brother George Warden, therefore, be it

Resolved, That we bow to the will of Divine Providence and trust that our brother has gone to the "Home of Rest Beyond the Grave" where sorrow is unknown.

He was young in years, as also in Odd Fellowship, but his life was marked for exemplary habits and true moral worth. Taken sick early in January, he gradually lost his physical strength, until on March 23d he passed to the other shore, from whence none return.

That in the loss of our young and honored brother this Lodge, as well as the community, has sustained an irreparable loss. To his dear relatives and friends we extend the hand of sympathy, and trust they may meet in the hereafter and renew the friendship inaugurated here.

That the charter of this Lodge be draped in mourning for a period of 30 days.

That this Lodge tender a vote of thanks to the members of the choir who so ably assisted in the service of song; to Mr. Wm. Chamberlain who so kindly furnished conveyances for the choir and others, and to all the friends who assisted in paying the last tributes which mortal can to the departed dead.

That these resolutions be spread in full upon the minutes of this Lodge, a copy sent to the relatives of the deceased, and a copy published in each of the daily papers of our city.

Yours in F. L. and F. HENRY B. RULE, R. C. LEMERY, Committee.

A Typical American.

This morning H. H. Fulton of Indianapolis was a passenger on the eastbound overland. He is a friend of the Reno colony of that name and a live citizen of the Republic. He has made a fortune in desks, of which he has patented and manufactured a great number, and now is pushing his electric locomotive headlight which is one of the needs of the times. He has a brother and sister who are missionaries to China and a brother residing in California. H. H. is a warm, personal friend of President Harrison and says he is to be re-elected.

A Shooting Scrape.

James A. Grant, a miner well known in this State, fired a couple of bullets into the body of John A. Kelly, the Bodie mining superintendent, at that place last Friday. The trouble grew out of a criminal intimacy that Kelly had with Grant's step-daughter. No arrests, no cards, no funeral, and but one baby.

A CORRECTION.

There Were Two Who Bore the Surname of "Metalliferous."

The item in the People's Advocate of Austin, on the authority of Captain C. B. Dalgren, that "Metalliferous Murphy" is living in New Mexico at the present time, is believed to be an error. The Captain is simply confused over the person. The one he refers to and who also bore the sobriquet of "Metalliferous" and was a contemporary of J. R. Murphy in the early days of Reese river, is J. D. Emery, who is residing somewhere in New Mexico or Arizona.

Monte View.

A new mining camp called Monte View has sprung into existence in the southwestern part of Nye county, presumably in the Grapevine Mountains. It is said to be near the line of the new survey made by the Union Pacific. Its nearest railroad station is Daguerre, on the Atlantic & Pacific. A postal route has been asked for, to run from Ivanpah to Gold Mountain, which will accommodate the new camp. The discoveries are principally of gold ore.

PRACTICAL TESTS.

An Astonishing Offer—Some of the Replies.

The San Francisco papers of recent date contained the following offer:—"As an evidence of the ability of Joy's Vegetable Sarsaparilla to prevent sick headaches, we will give to the first twelve responsible persons who will apply at our office a bottle free if they will agree that after they have been cured that they will admit the fact over their signatures."

This offer so startlingly asserted the efficiency of the remedy that many accepted, and the letters of the papers, nearly all of whom responded, are probably the most convincing attestations that any remedy ever received. The following is a sample of those received:—

I have been subject to bilious headaches and constipation for several years past. In fact, have been compelled to take a physician every other night or use I would have a headache and dull, mopey feeling. I have taken that bottle of Joy's Vegetable Sarsaparilla, and have derived great benefit from it, and intend continuing it. After my own experience I can heartily advise those troubled with biliousness and constipation to try it. Yours, CHAS. E. ELKINGTON, 125 Locust Avenue, San Francisco.

A Michigan Central Railroad Employee Wins His Case After Seven Years Contest.

While employed as agent of the Michigan Central Railroad Company, at Agusta, Mich., my kidneys became diseased, and from an impoverished and impure state of the blood, my general health was entirely undermined. I consulted the leading physicians of this city and Ann Arbor, and all pronounced my case Bright's disease. In October last I began taking Hilbard's Rheumatic Syrup, and am to-day a well man. It affords me pleasure to render suffering humanity any good that I can, and I will to say I think it is the best blood, kidney and liver medicine in the world.
